Jamshid Xamroyev

Front-End Developer

Surkhandarya, Uzbekistan · +998 94 463 22 81 · frontend.dev0811@gmail.com

I'm a junior Frontend developer who is passionate about creating fun and user-friendly web applications and is constantly evolving. I have a lot of skills in working with modern web technologies. Most importantly, I can provide quality code to my colleagues, the backend developer who will work on this project after me. Despite my young age, I also have hands-on project experience through academic training, and I really enjoy creating such projects.

Experience

Frontend Developer

Uzun IT-Center, in the office   Aug 2024 - Nov 2024

- This activity (project) improved my coding skills.
- Created a responsive and attractive design using HTML CSS and JAVASCRIPT and added interactivity using REACT js.
- During this project, became very skilled at adding quality and interactivity to the app.

Education

Self-Taught

Frontend Web Development - Online and offline   Mar 2024 - Jan 2025

- Completed multiple online courses and tutorials focused on web development technologies including HTML, CSS, JavaScript, and React.js.
- Worked on several personal projects to gain hands-on experience.
